

Last study we remembered that remembering is what we do. This week is all about realizing what we have. Which is easier for you, remembering or realizing?

Take a look at the Epistle lesson from this week (Ephesians 5:15-21). In your mind, what does it mean to “make the best use of the time”?

What do you spend most of your waking hours doing?

How are you doing at “making the best use of the time”?

Take a look at the Old Testament lesson (Ecclesiastes 5:10-20). Specifically verses 18-20. In what does the writer find joy?

Where do you find joy in your life?

How much of your life do you invest in that area and why?

How does verse 15 instruct us to value the earthly blessings God gives? Is that different from how you normally think of them?

God has truly given us many gifts, and he has not gifted us all the same. It's time to take a good hard look at who we are and what we have in Christ.

What are the three biggest earthly blessings God has given you?

What are the two chief talents God has given to you?

What is the task you do that gives you the greatest joy?
